Roadmap 9

# DUKE VISION

---

The purpose of Duke is to bring a humorous twist to the world of cryptocurrency and provide users with an opportunity to invest in a meme-themed asset. With a dedicated team that is driven with the intention of making sure its investors are at the heart of \$DUKE and all decisions are made in a transparent and productive way. We look to ensure a strong and vibrant life for the token and attain holders looking for a long term investment with real value.

Our vision is not only to provide many great use cases that will bring new investors into DUKE but keep it thriving for many years to come. We aim to ensure all products provided fit our brand and vision long term.

This is our key to becoming a recognized token.

# WHY DUKE

---

Well the answer is quite simple, in the current crypto space there are thousands of new projects every day from new teams and beginner developers.

Here at Duke, we have years of experience, we are honest, hardworking, and a focused team that knows there is only one direction to go and that is forward. Whilst also holding the DUKE name we plan on not only benefiting our brand but also spreading awareness on both chains and being the only stake to earn token on SHIBARIUM that rewards holders for holding.

# WHY SHIBARIUM

---

Because SHIBARIUM and its team are proven to reach new highs, they have built a respectable brand with a focused and loyal community.

As the team that we are, we plan to make a name for ourselves, our project, and our community on the new Shibarium Network.

Showing investors a strong core from the community and development team alike on the new network is marketing within itself.

# DUKESTAKING

Staking by UNCX (Formerly Unicrypt) Live March 24th.

STAKE

EARN

COMPOUND

In anticipation of the upcoming and highly-anticipated SHIBARIUM Layer 2 Blockchain, \$DUKE will be deploying staking on UNCX to reward our loyal holders with PASSIVE INCOME!

When holders stake their \$DUKE tokens, they will be able to subscribe to two distinct REWARD POOLS and be rewarded with two different tokens, \$DUKE and \$BONE!

We chose UNCX (Unicrypt) for our highly-customized reward program for our community to create incredibly powerful and customizable staking that allows us to deploy utility quickly with the safety and security of the MOST TRUSTED NAME in the space!

We will offer 3 different time period options for \$DUKE staking.

24 Hours or More - With our first option, you can lock your \$DUKE tokens for as little as 24 hours and receive staking rewards during this time.

31 Days - For those who want to stake longer and earn more, selecting the 30 Day Staking option will give stakers an additional 10% TIME BOOST BONUS over the base staking rate.

2 Months - For the true diamond hands who believe that longer term holding is the best way to win in crypto, selecting the 2 Month Staking option will give stakers an additional 25% TIME BOOST BONUS over the base staking rate.

Our annual percentage rate will be VARIABLE as this number is dependent on the total number of tokens that are staked and YOUR SHARE of the staking pool. Our User Interface will always show the current APR % and the current TVL so that holders and stakers will always be informed.

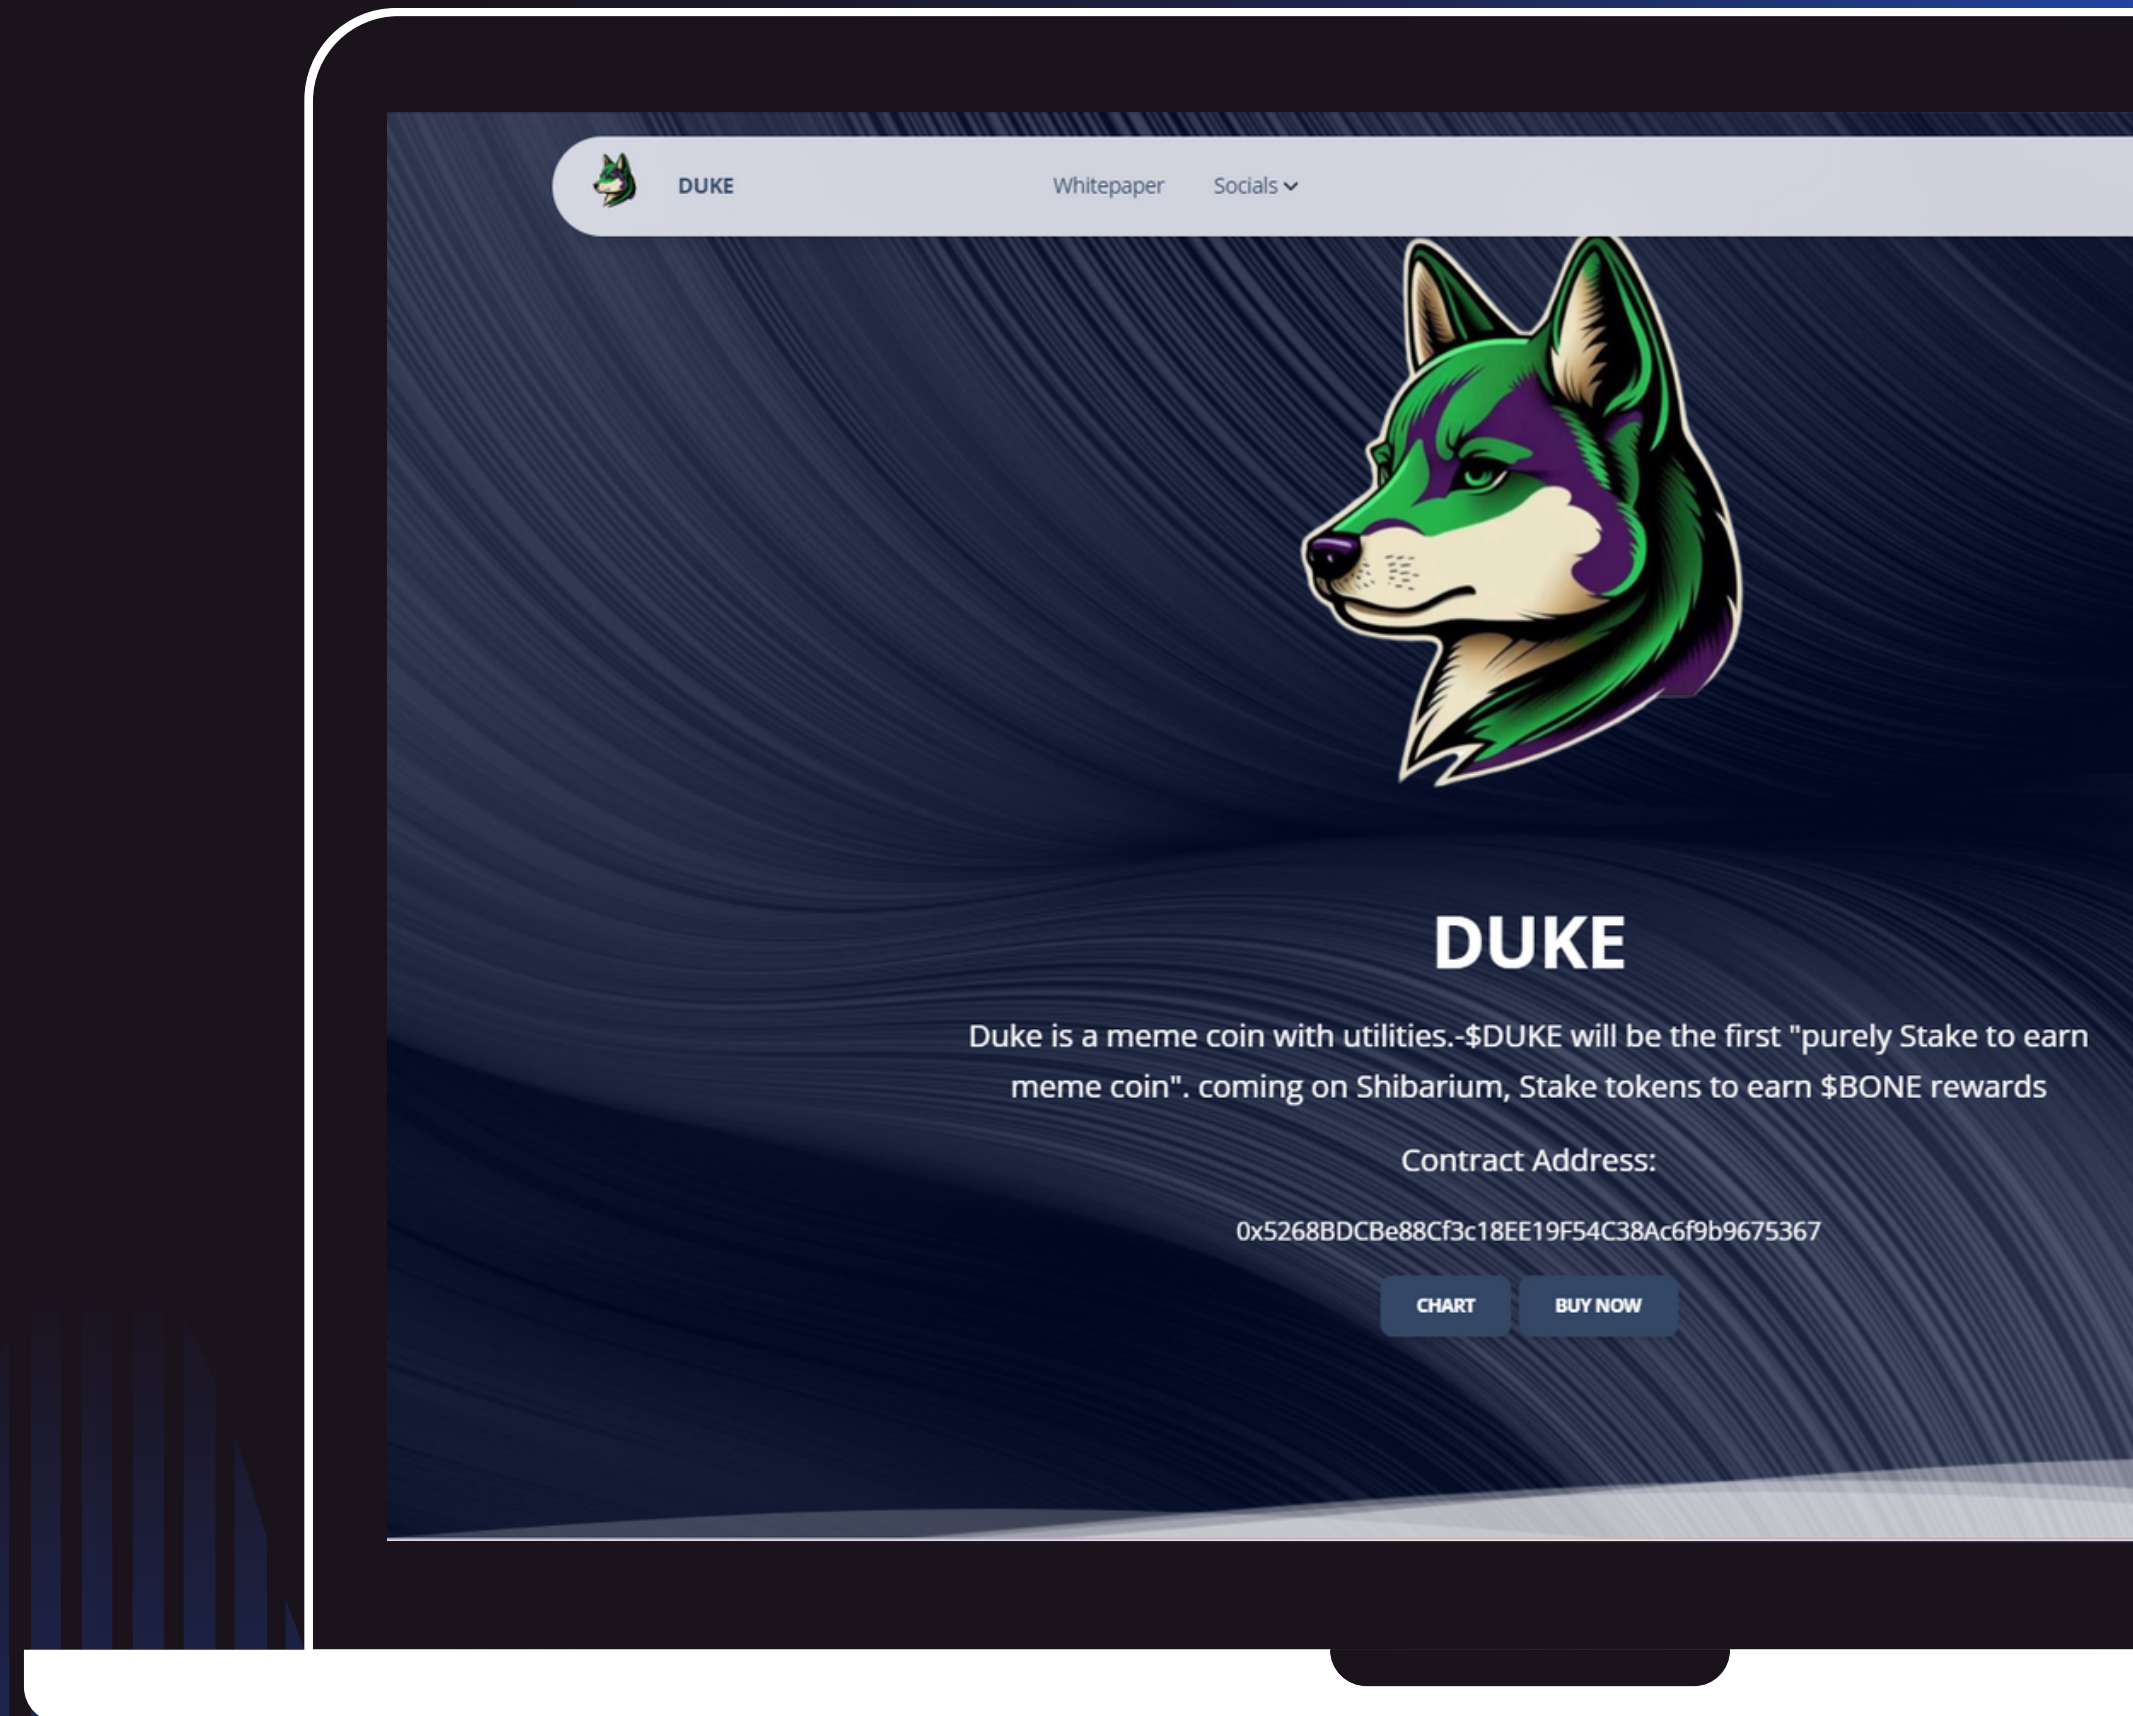

Just remember, it's as simple as this: The more \$DUKE tokens that you stake, the more \$DUKE and more \$BONE that you will earn!

# DUKESWAP

DUKESWAP will be a fast and convenient swap on the Shibarium network that will allow users to swap any token on web or mobile.

The DUKESWAP will have continuous development as the project grows bringing you games, farms, marketplaces, bridging, & more.

<https://dukeeth.wtf>

# DUKENFT

---

DUKENFT will be unique hand drawn artwork available for mint. The art itself will give users the desire to want more, allowing a continuous floor price growth.

The NFTs will also have utility with them to increase the demand. Staking, Lottery, & More will be included with our NFT minting.

# DUKE Roadmap

## PHASE ONE

- Stealth Launch on ETH
- Website Live
- Social Media Launched
- Community Development
- Organic marketing
- Whitepaper released

## PHASE TWO

- Utility previews
- Duke Swap
